

APPENDIX 10.2. TABLE OF BREEDING BIRD SURVEY RESULTS

Common Name	Scientific name	WCA 1981 and BoCC Status	NERC Species	EOAC Status ¹	Notes
Red-legged Partridge	<i>Alectoris rufa</i>	Introduced		PR	Individual birds seen on all surveys
Pheasant	<i>Phasianus colchicus</i>	Introduced		PR	Individual birds seen on all surveys
Canada Goose	<i>Branta canadensis</i>	Introduced		PR	Small flocks of birds seen on all surveys flying along the East Stour. Likely to have bred locally on larger waterbodies.
Mallard	<i>Anas platyrhynchos</i>	Amber list		C	Birds seen on all surveys. Female with small chicks recorded in Pond 3
Mandarin	<i>Aix galericulata</i>	Introduced		PO	Pair of birds seen in Pond 3 on the PEA survey. Suitable breeding habitat (woodland) adjacent to the application site
Woodpigeon	<i>Columba palumbus</i>	Amber list		PR	Adults seen across the site on all surveys. Likely this species bred in woodland on the edges of the site
Collared Dove	<i>Streptopelia decaocto</i>	Green list		PR	Adults seen at the southern edge of the Southern Array. Likely to have bred in off-site buildings
Moorhen	<i>Gallinula chloropus</i>	Amber List		PO	Adults seen / heard in areas of off-site habitat (ponds, river corridor and brook) on all surveys.
Lapwing	<i>Vanellus vanellus</i>	Red list	Yes	PR	Two pairs of birds seen on all surveys in the south-east corner of the Northern Array. Agitated behaviour recorded on the May visit which would indicate likely presence of chicks present within the arable crop.
Herring Gull	<i>Larus argentatus</i>	Red list	Yes	NB	Recorded on all three surveys in the bare field to the west of Church Lane as well as in the sheep-grazed improved grassland. Peak count of 73 individuals in May.
Lesser Black-backed Gull	<i>Larus fuscus</i>	Amber List		NB	Recorded on all three surveys in the bare field to the west of Church Lane as well as in the sheep-grazed improved grassland. Peak count of 12 individuals in June.
Sparrowhawk	<i>Accipiter nisus</i>	Green list		PR	Single birds recorded hunting along the woodland edge (Backhouse Woodland) on all three surveys. Likely to have bred in off-site habitat.

¹ NB – Non-breeding, PO – Possible breeding, PR – Probable Breeding, C – Confirmed breeding

Common Name	Scientific name	WCA 1981 and BoCC Status	NERC Species	EOAC Status ¹	Notes
Buzzard	<i>Buteo buteo</i>	Green list		PR	Adult birds seen over the site on all surveys. Likely to have bred within woodlands that are adjacent to the southern boundary of the site
Tawny Owl	<i>Strix aluco</i>	Amber list		PO	Single bird heard calling from Backhouse Wood on the April survey
Great Spotted Woodpecker	<i>Dendrocopos major</i>	Green list		PR	Adult birds recorded on all three surveys within Backhouse Wood and Park Wood.
Green Woodpecker	<i>Picus viridis</i>	Green List		PR	Adult birds recorded on all sites from Backhouse Wood, Park Wood and along the East Stour River Corridor and associated woodland habitat.
Jay	<i>Garrulus glandarius</i>	Green List		PR	Adults seen and heard on all three surveys within Backhouse Wood and Park Wood.
Magpie	<i>Pica pica</i>	Green list		PR	Adult birds seen on all three surveys
Jackdaw	<i>Corvus monedula</i>	Green List		C	Rookeries recorded in Partridge Plantation and Round Wood. Adults seen and heard on all surveys.
Carrion Crow	<i>Corvus corone</i>	Green list		PR	Adult birds seen on all three surveys
Coal Tit	<i>Parus ater</i>	Green List		PR	Adults seen and heard on all surveys within Backhouse Wood and Park Wood
Blue Tit	<i>Cyanistes caeruleus</i>	Green list		C	Adult birds seen on all surveys, adults seen carrying food on the May and June surveys and family parties also seen on the May and June surveys. A nest was also recorded within the hedgerow along Church Lane.
Great Tit	<i>Parus major</i>	Green list		C	Adult birds seen on all surveys, adults seen carrying food on the May and June surveys and family parties also seen on the May and June surveys
Skylark	<i>Alauda arvensis</i>	Red list	Yes	C	Adult birds seen on all surveys and adults seen carrying food on the May and June surveys. Considered to be between 2 and 3 pairs within the application site
Cetti's Warbler	<i>Cettia cetti</i>	Green List / Schedule 1		PR	Adults seen and heard from areas of suitable habitat at the southern end of Park Wood as well as within the woodland / reedbed area to the south of the Northern Array on all surveys.
Long-tailed Tit	<i>Aegithalos caudatus</i>	Green list		PR	Adults seen on all surveys and family groups seen on the June survey

Common Name	Scientific name	WCA 1981 and BoCC Status	NERC Species	EOAC Status ¹	Notes
Chiffchaff	<i>Phylloscopus collybita</i>	Green list		PR	Adults heard on all surveys from areas of adjacent woodland habitat including Backhouse Wood, Park Wood, woodland adjacent to the fishing lakes (south of the Northern Array) and along the East Stour
Blackcap	<i>Sylvia atricapilla</i>	Green list		PR	Adults heard on all surveys
Goldcrest	<i>Regulus regulus</i>	Green list		PR	Adults heard calling from within hedgerow habitats on the April and May surveys
Wren	<i>Troglodytes troglodytes</i>	Amber list		PR	Adults seen and heard on all surveys. Likely to be breeding within the site hedgerows as well as in woodland blocks adjacent to the site's boundaries
Nuthatch	<i>Sitta europaea</i>	Green List		PR	Adults seen and heard on all surveys. Likely to have bred in Backhouse Wood and Park Wood
Treecreeper	<i>Certhia familiaris</i>	Green List		PR	Adults seen and heard on all surveys. Likely to have bred in Backhouse Wood and Park Wood.
Starling	<i>Sturnus vulgaris</i>	Red list	Yes	NB	Adults seen flying over the site on all surveys
Blackbird	<i>Turdus merula</i>	Green list		C	Adults seen and heard on all surveys and adults recorded carrying food. Likely to be breeding in the on-site hedgerows as well as within the woodland blocks adjacent to the site's boundaries
Song Thrush	<i>Turdus philomelos</i>	Amber list	Yes	PR	Up to five pairs likely within woodland blocks adjacent to the site's boundaries as well as along the East Stour corridor
Nightingale	<i>Luscinia megarhynchos</i>	Red List		PO	Two male birds recorded in suitable habitat on the May survey. Not heard in June which could be indicative of successful breeding effort.
Robin	<i>Erithacus rubecula</i>	Green list		C	Adults seen and heard on all surveys, including carrying food. Likely to be breeding within the site hedgerows as well as in woodland blocks adjacent to the site's boundaries
Dunnock	<i>Prunella modularis</i>	Amber list	Yes	PR	Adults seen and heard on all surveys. Likely to be breeding within the site hedgerows as well as in woodland blocks adjacent to the site's boundaries
Pied Wagtail	<i>Motacilla alba</i>	Green list		PR	Adults seen on the May and June surveys. Juvenile birds seen on the June survey. Probably bred in off-site buildings / farms

Common Name	Scientific name	WCA 1981 and BoCC Status	NERC Species	EOAC Status ¹	Notes
Chaffinch	<i>Fringilla coelebs</i>	Green list		PR	Birds seen and heard on all surveys. Likely to be breeding within the on-site hedgerows as well as within the woodland blocks adjacent to the site's boundaries
Bullfinch	<i>Pyrrhula pyrrhula</i>	Amber List		PO	Three birds seen along linear habitat north of the Northern Array in April
Linnet	<i>Linaria cannabina</i>	Red list	Yes	PR	Adults seen on all surveys. Likely to have bred in low numbers in woodland / hedgerows adjacent to the site
Goldfinch	<i>Carduelis carduelis</i>	Green list		PR	Adults seen and heard on all three surveys. Likely to have bred within the on-site hedgerows
Yellowhammer	<i>Emberiza citrinella</i>	Red list	Yes	PR	Adults seen in low numbers on all surveys. Absent from the Northern Array and adjacent habitats as well as from the Eastern Array. Likely to be between 2 and 4 pairs in habitats adjacent to the Southern Array.
Reed Bunting	<i>Emberiza schoeniclus</i>	Amber list	Yes	PR	Single pair recorded on all surveys around Pond 4 (Church Lane). Absent from the site.
